

MCCORMICK

U S S E N A T E

TEN "DAY ONE" PROMISES FOR PENNSYLVANIA

1. **Reduce the cost of living for working families and those on fixed incomes** by extending the 2017 Tax Cuts and Jobs Act, eliminating taxes on tips, and maintaining the State and Local Tax (SALT) deduction cap.
2. **Lower energy prices and create energy jobs** by making America energy dominant, unleashing Pennsylvania's oil and natural gas production, and streamlining permitting for production and LNG exporting.
3. **Secure the border** by finishing the wall, bulking up the border patrol, and stopping the flow of fentanyl across the border with targeted military enforcement against the cartels.
4. **Rebuild our military power** by making generational investments in defense infrastructure – like reconstituting the Philadelphia Naval Shipyard with good skilled jobs.
5. **Shake up Washington** with term limits, making it easier to fire underperforming bureaucrats, moving key agencies like the Dept. of Energy outside of Washington, and banning members of Congress from insider trading, lobbying, or steering funding to family members.
6. **Counter China's rise** by ending any U.S. investment or trade that supports the Chinese Communist Party or makes us more dependent on China, banning the CCP's purchases of American land, stopping the illicit flow of fentanyl precursors, and protecting Americans' data privacy and security.
7. **Combat the rise of liberal extremism** by eliminating all taxpayer-funding for diversity, equity, and inclusion, particularly in our military, and by making federal funding for U.S. universities contingent on stamping out antisemitism.
8. **Get Our fiscal house in order** by passing a balanced budget amendment while protecting social security and Medicare benefits.
9. **Support families** by expanding access to school choice, banning social media for kids under 16, providing tax credits for childcare and fertility treatments like IVF, and investing more resources for technical training and vocational skills.
10. **Get tough on crime** by ensuring our law enforcement have the tools, funding, and legal protections they need to do their jobs and protect our communities.
